Digital Forensic Investigations

Why Us?

We have a unique and vast combination of skills, experience, knowledge and certifications; our expert has an extensive background in Law Enforcement; Computer System Engineering, Cisco Switches, Routers and Wireless, Data Recovery, Computer & PDA Forensics.

Who Do We Service?

For Corporations: Search, extract and present evidence of a crime or violations of company policy, embezzlement, theft, either from internal employees or external factors. Recover lost, deleted data. Mirror hard disks for backup.

For Attorneys: Discovery, analysis and presentation of electronic data extracted from seized computers and provision of expert witness testimony on the findings.

For Private Sector: Discovery, recovery of deleted or lost data, analysis of electronic documents pertaining to divorce, financial arrangements or custody, which could result in civil action.
